Bergen Regional Medical Center is proud to be a Network Civilian Provider for our veterans and active military.

Be assured that whatever your medical or mental health needs may be, Bergen Regional Medical Center is committed to providing compassionate and quality care to you.

Access to the services at Bergen Regional will be available as specified in your plan. It is important to follow your benefit program requirements when seeking services in regard to referrals, authorizations and appointments.

For more information regarding accessing services at Bergen Regional or for questions about the specifics of your plan requirements, visit www.hnfs.com.

Located at 230 East Ridgewood Avenue in Paramus, NJ, Bergen Regional Medical Center provides a comprehensive set of quality services including Long Term Care, Behavioral Health Care and Acute Care to the Bergen County community. Bergen Regional is both the largest hospital with 1,070 beds and the largest licensed nursing home in New Jersey.

Conveniently located near all major highways and accessible by NJ Transit.

For general hospital information, call 201.967.4000 or visit bergenregional.com.
Behavioral Health Services

Bergen Regional is one of the largest medical resources providing a continuum of care for the behavioral health community. The Medical Center provides quality inpatient and outpatient psychiatric and addictive disease treatment programs for children, adolescents, adults, and older adults. Our full complement of services includes:

- Mental Health and Substance Abuse Assessments
- Acute Psychiatric Hospital Care
- Subacute/Intermediate Psychiatric Hospital Care
- Psychiatric Intensive Outpatient and Partial Hospital Programming
- Substance Abuse Intensive Outpatient and Partial Hospital Programming

Medical Detox

Inpatient treatment is often necessary for a safe and successful medical withdrawal from alcohol, heroin, benzodiazepines and prescription pain medication. Patients requiring detoxification can do so in a safe environment staffed with trained, competent, and caring professionals. Bergen Regional is one of the only area providers of this treatment.

Comprehensive Outpatient Care Services

If you need outpatient medical care, you can see a primary care physician or one of our more than 20 specialists; have diagnostic testing performed, including MRI and mammography, on state of the art equipment; get laboratory work done; receive physical therapy; and have your prescriptions filled all at one convenient location.

Long Term Care

As a full service, accredited medical center, Bergen Regional provides highly specialized nursing care, as well as access to specialized onsite physicians, 24 hours a day, 365 days a year to our long term care residents. In addition to the quality of life the facility is dedicated to providing residents, families have the peace of mind knowing that if residents experience emergencies day or night, the comprehensive medical and mental health care they need is always just an elevator ride away.

The entire Medical Center, including its Long Term Care Division, is fully accredited by The Joint Commission. Less than 6% of Long Term Care facilities nationwide pursue and receive Joint Commission accreditation.
